Review of the Portsmouth Market, for the week ending, Sept. 23, 1850.

GENERAL REMARKS :- The past week bas not been quite as brisk for trade as the preceding, owing mainly to low stage of river, and the closing of the Ohio canal for repairs. Large stocks of Dry Goods are to be found awaiting orders or customers, and the other departments of trade appear well supplied. Our friends along the line of Railroad, will be gratified to learn that a corps of Engineers are now on the route locating the

The following transactions are noted.

FLOUR & GRAIN.-We find but limited transactions in flour with extremely light stocks. It is expected that canal navigation stocks. It is expected that canal navigation will be resumed by Wednesday, and large lots are looked for. The average sales of the week have been at \$3,55 wholesale. In wheat and oats, our quotations from last week remain unchanged.

Corres.—This article has been steadily

Corres.—This article has been steadily creeping up the ladder of prices, and now bids fair to reach the prices of March last. It is still selling at 12f cents per 1b. by bag, which is lower than it can be bought and brought here from the Eastern markets. The stocks from Cincinnati are, quite light, Sugan & Molasses.—These articles are in moderate request, and at prices same as last week. We quote fair to prime Sugar at 62 to 7c by hbd, Molasses 34 and 35c.

Corron Yards.—The continued advance of all descriptions of cotton goods has

of all descriptions of cotton goods has slightly advanced the price of yarns, and we quote 21c per lo as rate from store for lots assorted numbers. Batting 121 to 14c, as

in quality.

SALT.—There is an increasing demand for Salt, as the season advances. The retail sales are firm at 33c per bus., and it may not be uninteresting to our readers, especially the farmers, to know that if the dealer should sell at a less price than is fixed from time to time by the Salt Association, he is cut off from future supplies, and ceases to be recognised as an agent of the company. At wholesale (50 bis) the rate is 30c per bus. Bales Hay.—Our reporter notices small sales of Baled Hay. It brings 60c per cwt. Loose Hay on wagons delivered is sold at

\$10 per ton.

Bacon.—A limited demand only is noticed

BACON.—A limited demand only is noticed for this article. Sales of clear sides at 6c.

Whiskey.—We note a slight decline in whiskey. Sales of Rectified in lots at 21c.
21 and 22 are the asking rates.

RATES OF FREIGHT AND RIVER INTELLIGENCE.—From Pittsburgh freight is 50 cents per 100 lbs. To Cincinnati 12a to 20 cents. Steamer Z. Taylor has been compelled to discontinue her trips on account of low wa-ter. The Jefferson, stern wheel boat has taken her place, as regular packet to Cincin-nati. The Olive will be out in time for our citizens to charter her for the State Fair.

OBITUARY.

The following preamble and resolutions were passed at a regular meeeting of Portsmouth Division No. 51, S. of T.

WHEREAS, It has pleased Almighty God in His wise Providence, to terminate the earthly career of our late Bro. WILLIAM McColm, and to remove him from a life of pain and trouble to one of happiness and joy; and whereas, Bro. McColm in all the same time restores their vigor and tone. Its relations of life, proved himself a devoted husband and father, a kind and warm hearted benefactor and friend, and a firm the rapidity with which the patient recovers

For Purifying the Blood, and for the Cure of Scrofula, Rheumatism, stubborn Uicers, Dyspensia, Salt Rheum, Fever sores, Erysipelas, Pimples, Biles, Mercurial Diseases, Cutaneous Eruptions, Liver complaint Bronchitis, Consumption, Female complaints, Loss of Appetite. General Debility, &c.

In this preparation we have all the restora-tive properties of the root, combined and concentrated in their utmost strength and ef concentrated in their utmost strength and efficiency. Experiments were made in the manufacture of this medicine until it was found it could not be improved. Accordingly, we find it resorted to almost universally in cases of scrofula, Liver Diseases, salt rheum, General Prostration of the Vital Powers, and all those tormenting diseases of the skin so trying to the patience, and injurious to the health. It is a tonic, eperient and disinfectant. It acts simultaneously upon the stomach, the circulation and the bowels, and thus three processes, which are ordinarily the result of three different kinds of medicine, are carried on at the same time through the instrumentality of this one remedial agent. There ried on at the same time through the instru-mentality of this one remedial agent. There are many ways of relieving pain for the time being, but there is only one way of removing disease. No palliative, no anodyne, no tropi-cai application will remove it. It must be at-tacked at its source, in the fluids of the body, which convey the poison to the localities where it is developed in inflammation, sores, ulcers, tumors, abcesses, glandular swellings &c., as the case may be, These fluids must be reached, acted upon, purified by some powerful agent. A few days after I was attacked with a very disagreeable cruption of the skin, which my physician could not cure. I happened to find your sarsaparilla in a store in this place, and your sarsaparilla in a store in this place, and which is the negative of the medicine at remembering the popularity of the medicine at home, I purchased three bottles, which had the desired effect of removing my difficulty entirely. Sidney, (Maine,) April 15, 1850.

Massas. A. B. & D. Sanos:—Gentlemen—This is to certify that the subscriber of Sidney, County of Kennebec, State of Maine, has been afflicted more or less ever since my birth, with scrofula, which continued to increase until last February. In January, my legs were so swellen I could not get on my boot or stocking, and I had several large sores on me all the time. In this situation I was about to give up in desanir, when I was advised to tax Sandis. sarsaparilla. I had not much faith in it, but I sent to your agents in Augusta, Me., and procured one bottle, which did me so much good. I sent and got another, and continued until I had taken five bottles. I am now perfectly well. If any person who may read this lotter is afflicted with any disease of scrofula, I would most sincerely recommend and, advise them to make use of Sand's sarsaparilla. If any person wishes further information about my case by calling upon me I can convince them of the healing power of this works.

BRANDRETH'S PILLS ARE A SURE CURE FOR INFLUENZA.

THE subscribers respectfully incorponed a furniture Ware-Room on Court street, one door south of the Fire Engine House, between Front and Second streets, where will be found a large and well assorted stock of CHAIRS and CABINET WORK of every variety of style, suited to this market; which they will self as low as any establishment in Portsmouth. They would also remind the public that they are manufacturing all kinds of Cabinet work which can be sold as low as the same can be bought for in Cincinnati.

They have been for the Fire Engine Five persons who have not had it several times. It is a kind of a malignant contagious cold attended with much fever, and great prostration of health. So soon as possible, swallow six or eight Pills; a large dose is absolutely necessary to relieve the brain, that organ appearing to suffer greatly in this complaint. When they have operated well, put your feet and legs in hot water, or take a bot bath. Be sure and be purged, before you use any means of increasing the circulation, or your life may be the forfielt. Now go to bed; and, when in bed take two more pills and some hot boneset of increasing the circulation, or your life may be the forfeit. Now go to bed; and, when in bed take two more pills and some hot boneset tes, catrip, or balm or balsam, or some water gruel—any of these warm drinks will answer, and which may be left to choice—either of them will help to restore insensible perspiration and this method will generally cure. Should hovever, the patient, after the pills and this after treatment, not be better in the morning, let him le's another six, eight or ten pills more secording to the urgency of symptoms, and the warm drinks, and foot or general bath at night. My experience has shown me that the third day generally finds the patient well, when this plan has been adopted in the beginning. But in any event the continuance of the treatment is the best that can be adopted, whether it takes one day or twenty to effect the cure. However bad the head may be, never let the blood be drawn or leaches applied; we want all the blood we have. Instead of losing this "life of our flesh," let us take more pills which will take the death principle from us, leaving our blood relieved and ready to rally all its life powers for our restoration so soon as the purgation has left it free to effect this object.

CHOLERA.

This terrible disease has resisted nearly all the efforts of moicine to arrest its progress, but Brandreth's Pills, almost immediately after they are awallowed exert a beneficial influence.—
They carry out of the system the irritating matter upon which the disease depends for its continuance; they arouse the vital powers and restore warmth to the surface previously chilled by the coldness of approaching death. There is no occasion for fear provided Brandreth's pills are on hand for immediate use; their prompt administration will vanquish the malady and resistore the health.
